Ellison Primary Academy Homework Menu

Year Group: Year 6 Term: Autumn

Daily expectations There
Reading should take place daily. Maths blast including recall of all times tables, square number and cube numbers should take place regularly.
Homework expectations
English and maths homework is given out on a Friday and returned the following Wednesday). Spelling is set on Spelling Shed. This homework menu covers other areas of the curriculum and children should be encouraged to try some of the different activities over this half term.

Create it	Reflect on it	Research it
Create your own Timeline. You could add pictures too. Add on key periods of history that you have studied: - Ancient Greece - Ancient Rome - World War 2 - The Vikings - The Stone Age, Bronze Age and Iron Age Add any other periods of history or key events that you know.	Choose a question to answer: Who is your favourite author? What is your favourite book? Create a poster which shows your response. You could add drawings of book front covers, characters or settings. You could add book quotes or explain your choice.	Research all about how we classify animals. Find out about invertebrates (such as insects, spiders, snails, worms) and vertebrates (fish, amphibians, reptiles, birds and mammals). Some useful websites: Invertebrates Vertebrates Carl Linnaeus Be creative with how you share this. You could draw diagrams, classification keys or produce a fact file.
Design it	**Quiz it**	**Write it**
This half term we will be exploring all about seasonal foods. Seasonal eating - BBC Bitesize Seasonal calendar - BBC Good Food Create a menu for a particular season (this could be now or a different season of your choice). You could think about different foods that would be available and what main meals, starters or desserts you could create. Add drawings and description to make your menu sound appealing.	Login to SpellingShed. Try some of the quizzes that have been set. They cover some of our learning during the first half term and some of the learning we will do this half term. New ones will be added over time.	Choose an animal that you are interested in and find out all about their classification, habitat, diet and other interesting facts. Share this information in a non-chronological report, using subheadings and to organise your information. Watch this video for tips on writing a great non-chronological report.
