Dear Parents/Carers,

To support home learning, we have complied a list of websites which are useful and can be used at home. Some of these are websites that we recommend all year round, others are one which are usually incur a cost but are offering free resources during the Coronavirus outbreak so may require a login. We have added additional guidance to support this.

We have included some websites which encourage active ways of learning; some that promote mindfulness and others which are used to promote ideas for writing, discussion or other creative projects as well as other educational resources.

Websites which cover different subjects

Website	How it is useful	Additional guidance
www.twinkl.co.uk	Twinkl is full of resources for all different subjects and ages. They have PowerPoints offering guidance and activities for children to complete in their books.
