Learn to Code

Raspberry Pi, currently have free programmes for children to learn to code.

Children can learn to code in Scratch, HTML and Python. All the task are fun and easy to follow.

"Everybody should learn how to program a computer, beacause it teaches you how to think"
- Steve Jobs , founder of Apple.

Click the raspberry below to check out more about this amazing resource.

Always remember the E-Safety rules and tell an adult if you see anything that you don't feel comfortable with.
